Bi-State Cancer Registrars Meeting

Oct 12 - 14, 2011
Overland Park, KS

The overall goal of this conference is to increase the participants' knowledge of oncology data management with lectures of a variety of topics to include anatomy, staging, and data standards.

TARGET AUDIENCE

Cancer Registrars, health care providers, and health information professionals.

CONTINUING EDUCATION

Education hours attended maybe applied in accordance with your certification body. CE approval has been applied with NCRA for the total of 15.5 CE hours.

PROGRAM OBJECTIVES

Upon program completion, participants will:

- Understand myeloma definitions and staging
- Be able to create Powerpoint presentations
- Understand maneuvering in .pdf files
- Be aware of Survivorship issues
- Understand patient navigation functions
- Strengthen knowledge of childhood hematopoietic diseases
- Understand the use of path markers and tests
- Increase awareness of new CoC standards
- Be aware of the various survivorship programs
- Understand the use of breast cancer data worldwide
- Be introduced to the various Q&A products from standard-setters
- Update knowledge of Collaborative Stage version 2 changes

REMINDERS
